

Ruppmen Are Set To Tangle With Mexico Five Tomorrow

Lexington Stop Is But One Of 39-Game Card

By JIMMY BROWN
Kernel Sports Editor

Making their first appearance in Alumni gym since the W&L game on January 2, the Wildcats, fresh from a three-game swing through the South, will meet the University of Mexico basketball team at 8 o'clock tomorrow night.

The Mexicans are expected to present a fast-moving array of netters, and if they should hit a hot streak they may prove a troublesome lot. Most of their shots are of unorthodox variety, but at times they hit them with amazing consistency.

They are on their annual trip throughout the United States, with this year's tour consisting of a 39-game schedule. Their games range all the way from Texas to Boston. Other teams beside Kentucky that will be met include outfits like Yale, Northwestern, and other outstanding colleges.

LOSE TO MOREHEAD

The lads from "south of the border" have already visited Kentucky on their current jaunt. Tuesday night they took on Morehead State Teachers college quintet, and, although they stayed close all the way, they were unable to overcome Ellis Johnson's strong Eagle outfit and

KEN ENGLAND . . . will occupy starting berth as Cage Cats take on Mexico university tomorrow night in Alumni gym.

lost by an 11-point margin, 60-49. Many of the Mexican performers are in the states for the first time on the trip, which, according to their coach, is "primarily one of good will to further the good neighbor policy between Latin-American countries." The trip is sponsored each year by the University of Mexico.

BRIEF WORKOUT

The Cats, who returned Wednesday night, went through only a brief workout yesterday afternoon in preparation for the Mexicans. Several of the players were suffering from slight colds, which, although they weren't serious, caused them to take it easy.

Assistant Coach Paul McBrayer was absent from the drills because of illness. A cold which he caught on the weekend journey confined him to his home.

According to advance reports a rough game may be in the offing. Against Morehead Tuesday night 25 fouls were called on the Mexicans. The two leading Mexican performers against the Eagles were Labastida, with 17 points, and Rivasdenia, with 13.

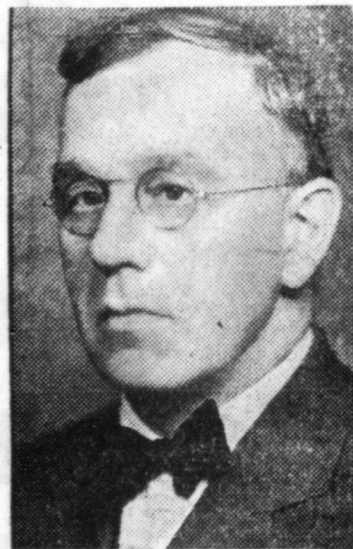

The probable starting lineups:

Kentucky	White	F	Mexico	Bribeles
Allen	F		Bribeles	
King	C		Moran	
England	G		Ramirez	
Staker	G		Rivasdenia	

DR. J. HUNTLEY DUPRE . . .

... were selected by their fellow pedagogues to speak at the arts and sciences college lectures in April.

PROF. W. S. WEBB . . .

Gallaway, Dupre, White, Webb, To Give Lectures

College Series To Be Held In April In Memorial Hall

Planned by the committee on the encouragement of scholarship in the arts and science college, four lectures by outstanding scholars in the college will be presented in Memorial hall during April, according to an announcement by Dean P. P. Boyd.

Dr. W. S. Webb, head of the department of physics; Dr. M. M. White, acting assistant dean of the college; Dr. J. Huntley Dupre, professor of history; and Dr. W. F. Gallaway, associate professor of English, have been selected by their colleagues to give the lectures.

The purpose of the series is to honor some of the outstanding scholars of the college, and at the same time to contribute something of real value to the University community, according to Dean Boyd.

The lecturers were chosen to

represent the generically related fields into which the college is divided: literature, philosophy and the arts; biological sciences; social sciences and physical sciences.

Speakers were nominated by the faculty of the college, under the direction of a committee comprising Dr. D. V. Hegeman, department of German, chairman; Prof. Robert Lund, history department; Dr. Charles Barkenbus, chemistry department; and Dr. R. H. Weaver, bacteriology department.

In addition to the series of open lectures which were presented by the college during the first semester, a new matriculation plan for freshmen was inaugurated.

Under the new plan, the first seven meetings of the freshmen were devoted to group discussions under leaders specializing in various fields. The last half of the semester was arranged to present eight general convocations of the freshmen in the college, at which prominent speakers, on and off the campus, addressed the group.

UK FACULTY TO RECONSIDER GIVING CREDITS

Legislature Seeks Elimination Of 12-Week Rule

The requirements for granting credits to students entering military service will be reconsidered by the University Faculty Friday, according to President Herman L. Donovan.

The resolution enacted by the student legislature requesting revision of the policy toward drafted and volunteering students will be presented to the body by President Donovan.

In the requested revision, the legislature asks for full credit for all "satisfactory" work taken by a student in a semester, regardless of the time he was drafted, and also full credit for a student who volunteers provided that "he registered with the intention of completing his semester's work."

By this resolution the legislature seeks to abolish the measure previously passed by the University Faculty requiring students to complete 12 weeks of the semester before receiving full credit for their work.

Russell Patterson, president of the student body, delivered the proposed revisions to Dr. Henry H. Hill, Dean of the University, Friday. Dean Hill in turn presented the resolution to Dr. Donovan.

Patterson said that he had been assured that the matter would be given careful consideration by the administration.

Frontier Nurse To Speak On Campus February 8

10,000,000 Books To Give Soldiers Are Wanted

Mrs. Mary Breckinridge, director of the Frontier Nursing service at Waverly, will open the second semester's work of the defense program for women on the campus by speaking on "Women in the Present Emergency" at 4 p.m. Friday, February 8, in Memorial hall.

Mrs. Sarah B. Holmes, dean of women and chairman of the women's defense program, will preside at the meeting. Representatives of various women's organizations on the campus will be seated on the platform.

Another contribution the University women are making for national work is the Victory Book campaign, sponsored on the campus by the residents of Patterson Hall. It is a part of a nation-wide undertaking to procure 10,000,000 books to be distributed to army camps for the use of the soldiers in training.

All campus living centers, organizations, and departments will be solicited for gifts of books, and a central receiving point will be established in the Library where contributions will be accepted.

Fiction, biography, travel, adventure, mystery, and text books published since 1935 are especially desired. The campus slogan is "A book from a student for a soldier."

The regular Friday afternoon war discussion forum, also sponsored by the defense work, will be postponed to prevent a conflict with Mrs. Breckinridge's speech. The next forum will be February 13.

DEAN SARAH B. HOLMES . . . announces appearance of Mrs. Mary G. Breckinridge, frontier nurse.

Shannon To Speak To Army Units

Prof. J. B. Shannon, acting head of the political science department, will make two addresses to units of the United States Army during the next two weeks, it was announced yesterday.

Professor Shannon's talks, on "The Propaganda Technique of the Dictators," will be given as part of the army's recently inaugurated program of lectures on the backgrounds of democracy and the war for military personnel. The addresses will be made at Bowman field, January 28, and at Fort Knox, February 5.

Legislators Will Be Invited To Campus

Governor Keen Johnson, Lieut. Gov. Rhodes K. Myers, and members of the state senate and house of representatives will be officially invited to the campus today.

Russell Patterson, president of the Student Government Association; Bill Penick, representative of Omicron Delta Kappa, men's leadership honorary; Tom Walker, head of the Student Union Recreation committee, and Barbara Rehm, band sponsor, will travel to Frankfort this morning to invite the state officials to the Kentucky-Georgia Tech basketball game.

Following the game, which is scheduled for February 5, the Union board, SGA, and ODK are scheduling a reception and dance in the Union building.

All students and members of the faculty are invited to the free, informal dance in the Bluegrass room, Penick said.

The legislators will be asked to come to the game and dance without their wives, Penick added. Campus sorority girls will be asked to come to the dance to entertain the officials, he said.

The student delegates will probably appear at today's session of the legislature to invite the members. It was announced.

BILL PENICK . . .

... with Tom Walker and Barbara Rehm will invite the state legislators to come to the campus sans wives.

RUSSELL PATTERSON . . .

President Herman L. Donovan wrote letters Tuesday to the state officials asking them to attend the game.

The approximately 150 officials to be invited will be seated in a special

section at the game, Penick declared. At the dance, the UK Troupers, student entertainment group, will give a floor show. The orchestra has not been booked as yet, it was added.

NYA Funds Cut \$2,500 Effective In March; Maybe None After July

PROF. VICTOR PORTMANN . . . will direct the state headquarters of the Kentucky Press association now located at the University.

Just A Reminder Of What Follows Final Examinations

Regular registration for the second semester will be conducted on Tuesday and Wednesday, February 3 and 4, in Alumni gymnasium, according to the registrar's office.

The following alphabetical schedule will be in effect:

Tuesday morning:
8 to 8:50, A through B
9 to 9:50, C through D
10 to 10:50, E through G
11 to 11:50, H through J
Tuesday afternoon:
1:30 to 2:20, K through L
2:30 to 3:20, M through O
3:30 to 4:20, Miscellaneous
Wednesday morning:
8 to 8:50, P through R
9 to 9:50, S
10 to 10:50, T through Z
11 to 11:50, Miscellaneous
Wednesday afternoon:
1:30 to 4:30, Miscellaneous

KPA Central Office Opened At UK; Portmann In Charge

A central office for the Kentucky Press association has been opened in the University Department of Journalism, with Prof. Victor R. Portmann in charge.

Permission of the executive committee of the Board of Trustees for the lending of a portion of Professor Portmann's time to the press association made the establishment of the central office possible. This action was taken at the Board meeting last week.

Work of the press association will be coordinated throughout the year by Professor Portmann, who was recently named secretary-treasurer and field manager at its midwinter meeting in Louisville. His office is located in room 70, McVey hall.

The bringing of the central office to the University is the result of several year's work, which culminated in a request by a special KPA committee to the Board of Trustees that a faculty member of the Journalism department be relieved of part of his teaching load in order to take over the duties of field manager and secretary.

Bryson Finishes

William G. Bryson, Ashland, who attended the University in 1937, '38, and '39, has finished his preflight training at the Air Corps replacement training center, Kelly field, Texas.

Barbara Rehm Adds Guignol To List Of Campus Activities

By BETTY JANE PUGH

In a word, Barbara Rehm is versatile.

Miss Rehm, a junior in the arts and sciences college and an English major, will appear in a leading role in Guignol's next production, "Old Acquaintance." Thus she adds little theater work to an already long list of varied accomplishments on this campus.

She is president of Alpha Gamma Delta sorority, sponsor of the "Best Band in Dixie," Sweetheart of Sigma Chi, a member of Pitkin club, and has a standing above 2.

When asked if she liked the part of Dierdre Drake, which she plays in "Old Acquaintance," she answered in the affirmative, but added "It's very sophisticated. I have to come in tight in the last scene."

Though this is her first Guignol appearance, Miss Rehm has had private training in dramatics, and the leading role in her high school senior play, "Anne of Green Gables." Dierdre is a girl of 19 whose mother, Milly played by Mrs. Hugo Bloomfield, Lexington, is a writer, unfortunately not a good one. A friend and contemporary of Dierdre's mother is Kit, played by Mary Lyons, also of Lexington. Kit and Dierdre are very fast friends, and so an awkward situation arises when a three-way love affair develops between the two and Rudd Kendall, enacted by Jim Purser, Arts and Sciences freshman.

Dr. A. E. Bigge will make his first Guignol appearance as Preston Drake, Dierdre's father. This will be Mrs. Bloomfield's eleventh Guignol play, and Miss Lyons

BARBARA REHM . . . is blonde, sponsor, sweetheart, and now Guignolite.

eight. The remainder of the cast includes Ann Duke Woodford, Lexington, and Harold Brown Connolly, graduate student.

The three-act comedy by John van Druen which opens February 9 for a full week's run plus a Saturday matinee, will be directed by Frank Fowler with Leslie Betz, training school instructor, assisting. Costuming and sets will be modern, the latter depicting Kit's apartment in Greenwich village, and Milly's apartment on Park avenue.

DEFENSE COURSES TO BE SUBSIDIZED

Deans Of Women, Men To Supply Jobs After July

Another \$2500 cut in the University's National Youth administration appropriation will go into effect in March, it was announced yesterday by Dean T. T. Jones, dean of men and one of the campus directors of the NYA program.

In the next government fiscal year which begins July 1, there will be no NYA help to schools except for training in defense jobs such as riveting, welding, etc., Dean Jones said.

The government's appropriation for the next fiscal year's NYA program is \$100,000,000 he added. This measure will probably exclude the University from NYA funds, unless the engineering college initiates classes for students similar to present defense training courses offered to townspeople by this college, it was felt in campus circles.

THIS YEAR'S CUT
The University's NYA office began the year with an appropriation of \$36,000, which was 20 percent less than the previous year's appropriations.

The first \$2,500 cut in the funds came in December, the beginning of one of the NYA program's quarters. "At the end of the year we will be operating on about 50 percent less money than when we started," Dean Jones said.

In July, the dean of men's office, dean of women's office, and the YM and YWCA will continue to furnish employment service to students, Dean Jones said.

450 AIDED LAST YEAR
Last year the University's NYA committee, composed of Dr. E. Z. Palmer, chairman; Dean Jones and Dean Sarah B. Holmes, aided about 450 students. A total of \$45,900 was paid them.

In the NYA program, students are permitted to earn \$10 to \$15 per month at a flat rate of 30 cents an hour. They are selected on the basis of information gathered from forms sent them before the school term begins, from testimonials, and from school records.

Taylor To Attend Meet

Dr. Wm. S. Taylor, dean of the education college will attend a meeting of all the administrators of Kentucky schools and colleges Saturday in Louisville.

Dean Taylor will represent President Herman L. Donovan, who may be unable to attend the meeting, it was announced.

KERNEL POLL What They Think

By CELIA BEDERMAN
What do you think about the quarter-system for the University? Robert Kibler, ag. junior—"I think as the quarter system has proven its merits in many other larger universities that it will be of great benefit to the University of Kentucky."

Robert Adair, A&S junior—"It's a good thing for the University because they can play baseball all summer."

Garry Hearn, commerce freshman—"I think it will be a help to the boys who want to get into advanced military before they reach draft age so they can complete their college education, and at the same time make themselves more valuable to the army."

Earle Fowler, A. & S. senior—"It will enable students to finish college more quickly."

Arthur S. Collins, A. & S. senior—"I think it will allow the students to do better work because they will be able to concentrate more intensely on fewer subjects."

Louise Lowe, A. & S. junior—"I think it is a good thing because as conditions are today students benefit by getting through college quicker. I think all colleges and universities should have it."

Marian Tucker, A. & S. junior—"I like the idea of taking fewer hours and concentrating your efforts on fewer courses."

Colonel Caldwell, A. & S. sophomore—"I think it's a good thing because it speeds up education. It should be continued after the war."

Profits Versus Patriotism

Infinitely more costly than the mistakes at Pearl Harbor have been the criminal blunders of America's Big Business, production boards, and procurement bosses in string-halting war production in the past year and half.

Infinitely greater a blow than the loss of the Arizona or Prince of Wales or Repulse has been the loss of vital production hours and facilities by the short-sighted tactics of the old OPM and the selfish nicker-grabbing of the automobile, steel, aluminum, power, ship-building and other basic industries.

Infinitely more serious than the fall of the Philippines or Singapore has been the failure of America's industry to go all-out for defense production.

Whether due to ignorance or to deliberate non-cooperation, the refusal of Big Business to make the sacrifices necessary to put America's giant production machine at top capacity and the failure of the proper authorities to force it to do so should go down as the biggest crime of 1941.

The reports on American production by Assistant Attorney General Thurman Arnold and Senator Harry S. Truman's Congressional committee, released last week and hush-hushed by all but a few newspapers, point an accusing finger at the business-as-usual clan of OPM officials, the bosses of the major American industries, and the army and navy brasshats in charge of procurement.

The story these reports have to tell should send chills up and down the spine of anyone familiar with the collapse of the French Republic.

From the beginning, the dollar-a-year men have proven in far too many instances incompetent, short-sighted, and jealous of their authority. Many have continued to draw salaries from their corporations, have worked more for the home office than for the government, have placed the interests of their own business ahead of the interests of the defense program. They have misrepresented or misjudged the railroad, steel, power, aluminum, and aircraft industries—to mention only the most notorious—have made mistakes or deliberate misstatements too often to be excusable.

The army and navy brasshats have quibbled over authority, plagued manufacturers with last-minute changes, hampered work in hundreds of ways.

And most notorious of all have been the industries themselves. Ever since the beginning of large scale defense production, the reports declare, a sickening percentage of American industry has fought expansion, fearing to disrupt the normal order of things, jealous of its power and profits.

Many of the 86 firms which have 75 percent of all war contracts have concealed shortages with optimistic predictions, hoping to keep competitors out of the field. They have hoarded contracts and let them pile up, rather than to sub-contract them to contractless, floundering little businesses.

Last Bulwark Falls, As Pepsi-Cola's 'Nickel-Nickel' Invades The Jukebox

Not so long ago we warned everybody of the desperate and dangerous advertisers and it seems now that we weren't a bit too soon. Last week they entered upon their most desperate campaign. Our last bulwark—the juke-box, has fallen.

Like the screen, the radio, the movies and the printed word now on the 50,000 juke-boxes scattered over the nation we will, henceforth, be informed about the attributes of everything from hair-wash to fried dough.

Last week the Pepsi-Cola company struck the idea, following a good many requests for records of its famous radio jingle that goes

Nickel-Nickel
Poodley-ahh-pahhh, Poodley-ahh-pahh
Pepsi-Cola hits the spot,
Twelve full ounces, that's a lot,
...and so continue ad nauseum.

They took complete orchestrations of the song, added a few more lines, had a well-known band record it and sent out the first few thousand records—free—to juke-box distributors.

I WITNESS BY BOB BAKER
those who split the loot with the druggist, barkeeper, etc.

Which brings us to the conclusion that advertising has gone a bit astray. Advertising could be used to strengthen our minds and hearts as a unit working toward a single goal. It could be used to help in making our nation secure in time of war. But this is mere daydreaming, since we realize that advertising is still caught in its customary dilemma, torn between its yearning for pure, disinterested service and the foul temptations for commerce.

It was the old pitiful story of setting out to strengthen the people's minds and hearts, and ending up by wishing off on the public ears a bit of childish nonsense, or by volunteering for national defense and assaulting our last strong-hold with "Nickel, Nickel, Poodley-ah-pahh" and other such.

GOOD BOOKS—
TWO BITS AND UP
The book publishers have published recently some very fine editions

of popular and classical works at reduced prices. Among these are two well-edited and unusually good buys printed by Pocket Book Inc. They are "The Pocket Book of the War" containing articles and excerpts from important publications on the war. Among those in the collection are Dorothy Thompson, Vincent Sheehan, John Gunther, Andre Maurois, Winston Churchill and President Roosevelt.

The other Pocket Book is the 25 cent edition of "The Rubaiyat of Omar Khayyam." It is unusually well prepared and boasts illustrations which are surprisingly good for a cheaper edition.

Blue Ribbon Books, which has published for a number of years dollar editions of outstanding fiction and non fiction, have recently reprinted three above-average volumes that hit the best seller lists a few months back. They are "Oscar Wilde and the Yellow Nineties" by Frances Winwar, Ogden Nash's "I'm A Stranger Here Myself", and Miss DuMaurier's well-known "Jamaica Inn".

Wise ... and otherwise

BY BOB AMMONS

That new song "We Did It Before And We'll Do It Again" sounds fine in the mouths of army and navy men, but the recent statements in American newspapers and magazines of men of the same school of isolationists who sabotaged the League of Nations last time make us wonder if they're not singing the same thing too.

To the rapidly-increasing list of slogans and mottoes for World War II, Stanley Morton, book-chaser for the library, contributes: "Put the Squeeze on the Nipponese."

The last World War evidently wasn't.

Sororities who are worrying because they are having to plan Valentine Dances for Friday the thirteenth might ask President Roosevelt to change the thirteenth to Saturday.

It is with no slight suspicion that we view the goings-on around the journalism department this week, ever since we picked up a piece of paper in the typing room with the following cryptic notations:

"Found near a wood by chief of police Alex Wall.
"Negro reported (frightened) that 15 men in cars had stopped near his home and carried three men into the woods and flogged—
"2 pr. of men's underwear
"man's hat filled with broken eggs (that's what the paper said.)
"towel
"2 empty molasses can."
Now, just what this is all about, we can't say. But we're sure it bodes no good for anyone.

Eat Garlic, Keep Safe During An Air Raid

ON THE COLLEGE FRONT By JIMMY HURT

College papers can always find humor and a chance for ingenuity in everything. Today's war is no exception.

'RUN LIKE HELL—IT'S SAFER'

For instance, here are a few air raid precautions from the Clemson Tiger which, as they say "might give Civilian Defense Chairman La Guardia a fit, but they do have their points.

1. When you hear or see the planes or hear the bombs falling, run like hell. Wear track shoes if possible. This will greatly simplify things as you can climb over those who are slower than yourself with greater ease.
2. Always take advantage of your immediate position. That is to say, if you are in a bakery when the warning sounds, grab a cake, if in a book store, grab a book. If in a movie, grab a blonde.
3. Always scream and yell as loud as possible. It will add to the confusion and you can have lots of fun scaring the hell out of all the kids.
4. If you see a dud bomb lying near by, pick it up and hit the front end with a hammer. (Maybe the firing pin is broken.) If it goes off in your hand, be calm. There is no sense in going to pieces over it. If it does not go off, don't worry. Just lie still, you're already dead.
5. If an incendiary bomb drops in your immediate vicinity, throw gasoline on it at once. You couldn't put it out anyway, so you might as well have some fun. If you are looking for a really good time, throw water on it and the undertakers and fire department will take care of the rest.

Explanation: The intense heat of the incendiary bomb and the chemical stuff unites with the water liberating the molecules with terrific force and well... well, it explodes with a hell of a noise, anyhow.

6. When entering an air raid shelter, always eat a lot of garlic. This will make you more or less unpopular with the other transients and you will have a corner all to your self. What if you do lose all your friends, at last you will be able to breathe.

7. When the warning sounds, immediately follow the first air raid warden you see. If you do, you will be sure of safety for they always have the best place for themselves and their friends.

8. The stamps will be folded and tied with the University colors and will be worn by the girls just as a flower corsage is worn.

THEY'D LAST LONGER, TOO

University of Virginia coeds will soon receive corsages of defense stamps in place of flowers if the movement by members of the Phi Delta Theta fraternity gains momentum.

The stamps will be folded and tied with the University colors and will be worn by the girls just as a flower corsage is worn.

According to members of the fraternity if during a dance weekend, 3,000 corsages are sold, approximately \$9,000 would be spent on flowers. This would be no trifling amount if put in Defense Stamps, they say.

Somebody predicts that women will rule the world in twenty years. Personally, we don't expect to find conditions any different than they have been for the last twenty years.

"Garbo Laughs at Garbo"—headline. That just about makes it unanimous. —Roanoke Times

But Long After The Lessons ...

VICE OF THE PEOPLE By ROY STEINFORT

College scenes I'll never forget:
How awful that little blue freshman cap fitted me ... and how long those lines were at registration the first day ... And how confusing making out a schedule was ... And how odd the Phi Delt's looked to me with their ankle pants, sky-blue-pink socks and checkered sport coats.
And how the doctor jabbed me six times with a needle before I fainted ... And golly, weren't we a funny looking group going through our physical exams ... How out-of-place you felt at that first Saturday night in the Union ... The various assortment of new shiny pledge pins ... and the big brothers making it a point to introduce their neophytes to all queens.

The thrill of going to your first college game with a date and how swell you thought she looked with that buck mum.

The crowded train that Suky chartered to go to the Georgia Tech game in Atlanta ... And how disappointed you were when Tech ran around Hoot Combs ... And that first letter from Pop informing you that you had overdrawn the bank account.

The funny feeling you had in the pit of your stomach after the six weeks' grades were posted ... And your excuses for an increase in the allowance ... The convocations, that you never attended ... And the little cliques in the grill ... The end of the semester—and those horrible sleepless nights.

Those chemistry formulas you had to memorize ... The sigh of relief after the final exam ... And the party that you had that night ... And how that little man with the pneumatic drill pounded in your head the next morning.
The thrill of seeing our hardwood 'Cats mop up on the best teams in the country ... How six fellows inhabited one room at the South-eastern conference tournament in Louisville ... And the fellow who got mad and slept in the bathtub.

Ma Nature in the spring with her big can of green paint ... The couples walking through the Botanical gardens holding hands ... How the campus moved to Boonesboro the first hot day.

The way you kept delaying those spring book reports, telling yourself that you'd do them next week ... And the way the weeks rolled by and the exams were just a week off ... How popular the walk to the library became ... The day the finals were over and school was out for the summer.

Telling your friends goodbye and promising them you'd write often ... You never did ...

Those are just a few of the incidents that go along to make college college ... They'll linger in my mind long after I forget the principles of Boyle's law and who was Andrew Johnson's Secretary of Navy.

It Takes A Time And A Man

THE FREE LANCE By BOB WARTH

It may be accepted as a fundamental postulate that no dictator is a normal being; and by this statement we mean not only as far as intelligence, ability, and personality are concerned, but abnormal in the pathological sense.

Were we to accept only the former definition as a criterion of normality we might include all leaders who have distinguished themselves above the ordinary. However, these persons are usually well-balanced individuals; for it is only in the dictator that we may perceive both connotations of the term.

Extremely rarely do we find that perfect set of circumstances (coincidental, if you will) in which we have a pathological individual, a fanatical believer in his own destiny, combined with an environment ripe for "exploitation". Such an individual was Napoleon—and such an individual is Hitler.

AUTHORITY COMPLEX

Last Tuesday we attempted to give a more or less original twist to some well known facts concerning Hitler's life; but a little light on the psychological motivations of dictators in general may be pertinent in considering the peculiar case of Hitler himself.

Dr. Wilhelm Stekel, the great Viennese psychiatrist, formulated a theory known as the "authority complex" which gives a plausible explanation both for the neuroticism of dictators and the craving of the masses for some infallible Higher Authority to guide them out of the "wilderness". The likeness of this latter phenomenon to the religious impulse, "the will to believe," is striking.

He conceived the dictator as essentially a father-substitute for the breakdown, especially since the Great War, of the old values of institutional authority—the family, the school, the church, and the existing political system.

In short, it is nothing less than Bob Ammons' familiar nightmare, the "What-the-Hell Generation," which has reared its ugly head again only in Europe this time, not America—and brought about the epidemic of extreme Rightist and Leftist oligarchies.

THE BAND-WAGON

It is one of the precepts of social psychology that a mob, contrary to mathematical laws, is not composed of the sum of its parts, but is in reality an individual within itself. One of its most curious phenomenon is that of the feeling of security, or the "safety in numbers" principle, which plays so vital a part in influencing public opinion.

A homely analogy is the traditional custom of "hopping on the bandwagon" so familiar to students of the lunacies prevalent in the American political scene. Of course, these mass psychological manifestations are found in crowds (and nations) universally. Need it be said that this is one of the primary reasons why Hitler, as well as other dictators, has gained such a vast following once he obtained the Chancellorship?

There appears to be an inverse relationship between the number of followers and individual doubt concerning the fallibility of the leader.

Furthermore, once his prestige is established, the feeling of individual inferiority is submerged into a na-

tional superiority complex—witness music, Mussolini in speeding, and Kamal Ataturk in alcohol.

Next week we hope to drag into the light more significant information on just what makes a dictator tick, and possibly to discuss Professor Ernst Kretschmer's schizophrenia theories.

Quotable Quotes

Sadi: "Foolish people are a hundredfold more averse to meeting the wise than the wise are disposed to for the company of the foolish."

Fit to fly with the best!

It's a great service—the Air Corps! Picked men and picked equipment! One of its latest radio devices—the Western Electric throat microphone—transmits speech clearly in spite of roaring motors, leaves the pilot's hands free, doesn't interfere with his oxygen mask.

This new "mike"—and many other kinds of special radio equipment for the armed forces—grew out of Western Electric's 60-year experience as manufacturer, purchaser and distributor for the Bell System.

We're glad the knowledge and facilities gained in our telephone job—more important than ever today—enable us to help "Keep 'em Flying!"

Western Electric
... is back of your Bell Telephone service

K-Dets, Military Sponsors, Plan Tea Dance In February

CAROLINE CONANT ... is the captain of the K-Dets, who will entertain with a tea dance Friday afternoon, February 9, from 4 to 6 o'clock in Buell armory.

The K-Dets, the University's military sponsors, will entertain with a tea dance Friday afternoon, February 9, from 4 to 6 o'clock in Buell armory.

Invitations will be sent to all men in advanced military, Pershing Rifles, and the band. The music for the affair will be furnished by David Mahanes and his orchestra.

Officers of the K-Det group are: Caroline Conant, captain; Louise Ewan, first lieutenant; Geneva House, second lieutenant; Julia Johnson, master sergeant; and Lida Stoll, first sergeant.

The following committees are making arrangements for the affair: invitations, Barbara Rehm and Caroline Conant; music, Adeline Stern and Sylvia Siegle; guests, Mary E. Nickerson and Geneva House; refreshments, Patsy Horkan and Margery Schwartz; and publicity, Aimee Murray and Lida Stoll.

Initiated ...

By Lambda Lambda chapter of Sigma Chi—C. Edwin Barnes, Louisville; and George W. Walker, Detroit, Mich.

Delta Chi Smoker Honors Fliers

Actives and pledges of Delta Chi held a "Keep-em-Flying" stag smoker Tuesday night in honor of Bill Imwall and Spence Moore, who left Wednesday for Maxwell field, Ala., where they will go into training as aviation cadets.

The house was decorated in a patriotic theme, with placards reading, "Keep'em Flying," "Slap the Japs," "Remember Pearl Harbor," "Axe the Axis," "Nip the Nipples," "Set the Rising Sun," etc.

In charge of arrangements were Paul Baldwin, Pete Manos, and Phil Bowen.

Farm, Home Meet To Open Tuesday

Agriculture, Homemaking Will Be Discussed

All phases of agriculture and home making will be covered in the thirtieth annual Farm and Home convention to be held Tuesday through Friday at the agriculture and home economics college.

Tobacco will be discussed by members of the agriculture college and the United States agriculture department. "Tobacco Bed Management" will be the topic of Prof. E. J. Kinney, professor of farm crops. Joe Milam of the United States agriculture department will talk on tobacco insect pests.

Another speaker from the agriculture department will be Hugh W. Taylor who will discuss the preparation of tobacco for the market. After the talks there will be a round table discussion.

REPORTS TO BE HEARD

Nurserymen will report on ornamental horticulture, plant identification, and shade trees. "Some Ornamental-Plant Pests" will be discussed by Prof. W. A. Price, professor of entomology. Dr. Frank T. McFarland, head of the botany department, will tell the distinguishing characters in plant identification.

"Shade Trees Other Than Oaks, Elms, and Maples" will be the subject of Prof. N. R. Elliott, professor of landscape architecture and floriculture. Experiment studies in ornamental horticulture will be discussed by L. C. Chadwick, Ohio State University.

The women's session's will place emphasis on hemisphere matters with Miss Mary Winslow, member of the Inter-American Commission of Women, speaking on "This Hemisphere of Ours." Virginia Zuniga, student from Costa Rica, will tell of "Life in My Country," and Regina Arruda, student from Brazil, will sing the folk songs of her country.

Dr. Allen Stockdale of the national association of manufacturers, New York, will discuss "Making Democracy Work." "The Farm Family in Times Like These" will be the topic of Dr. Thomas P. Cooper, dean of the agriculture and home economics college.

TO DISCUSS HEALTH

The good health part of the women's program will include a talk on "The Milky Way to Health," by J. C. Nisbet of the American Jersey Cattle club, New York.

"How Uncle Sam Feeds His Boys," will be discussed by Miss Mary Barber, food consultant of the United States War department.

Sigma Chi Initiates Honored At Dinner At Chapter House

The new initiates of Lambda Lambda chapter of Sigma Chi were honored guests at a dinner party at the chapter house Sunday evening immediately following the initiation ceremonies.

The entire active chapter was present. Among the alumni there were Prof. Perry West, Major J. E. Brannon, Prentice Douglas, Richard Colbert, James Ireland, Paul Rehm, and Col. Dick Johnson, the oldest living initiate of Lambda Lambda chapter.

Following the dinner short speeches were given by various alumni members and the entire group joined in singing songs of the fraternity.

Tucker Named KHSPA Director

W. C. Tucker, associate professor of journalism, has been named director of the Kentucky High School Press association to succeed Victor R. Portmann, assistant professor of journalism, who has resigned to take charge of the new central office of the Kentucky Press association in the journalism department.

Professor Tucker will take over the editorship of the KHSPA News, which is compiled in the journalism department and is sent to high schools throughout the state. The departmental committee which plans the annual convention of the high school press association will continue with Dr. Niel Plummer, head of the journalism department, as chairman.

DR. ALLEN A. STOCKDALE MARY N. WINSLOW DR. CARL TAEUSCH

A. L. JOHNSON MISS MYRTLE WELDON HELEN S. MITCHELL

THOMAS P. COOPER MISS MARY J. BARBER DR. H. L. DONOVAN

Dr. Helen Mitchell, of the Federal Security agency, Washington, D. C., will speak on good nutrition for the nation.

At the Homemakers luncheon Friday in the Union building Mrs. Lydia Lynch Hall, first president of the Kentucky Federation of Homemakers, will discuss the "Opportunities and Responsibilities of Rural Women Today."

DONOVAN TO SPEAK

President Herman L. Donovan will speak on the University as a service institution at a Thursday meeting of the women's group, and Dr. Carl Taesch, of the agriculture college will talk on training for citizenship.

Seed improvement will be discussed from the point of view of plain and hybrid corn. Dr. W. D. Valleeau, professor of plant pathology, will report on corn diseases. "Keeping Up To Date on Hybrid Corn" will be the subject of Prof. E. J. Kinney, professor of farm crops.

The annual Get-Together banquet will be at 6:30 p. m. Thursday in the Union building. Other parts of the four-day program will include sessions on animal husbandry, dairying, marketing, soils and crops, poultry, and beekeeping.

Phi Mu Alpha Pledges Nine

Nine students have been pledged to Phi Mu Alpha, Sinfonia fraternity, men's national music honorary. It was announced yesterday by Jack Thoman, president.

New pledges include Joe Terre, Calumet, Ill.; Albert Frey, Charleston, W. Va.; David Phelps, Somerset; Harold Lindsay, Madisonville; Pierre Pujol and Byron Bach, both of Bellevue; and Charles and Louis Barker, and James McMahan, all of Lexington.

Thoman presided at the formal pledging ceremony and music was provided by Parker LaBach, pianist, who is a senior in the college of arts and sciences.

Ellis Will Speak To Chemists

"The Role of the Analytical Chemist in the Modern Distillery" will be the subject of an address by Dr. R. B. Ellis of Seagram's distillery, Louisville, at the regular meeting of the Lexington section of the American Chemical society at 7:30 p. m. Thursday in Kastle hall.

Alpha Gamma chapter of Alpha Chi Sigma, national professional chemistry fraternity, will sponsor this meeting as it has done in previous years.

Iglehart To Fly

Louis T. Iglehart, former editor of the Kernel and reporter for the Lexington Herald, has entered the United States Air Corps.

He is stationed at the pilot replacement center, San Antonio, Texas. Iglehart was inducted into the army several months ago under the selective service.

Women Still Get Last Word--Even On Men, Their Clothes

By TONI

Whatcha know—it's ladies' day! So-o-o, I'm giving two representative members of the fairer sex a chance to let their curls down and give with arguments for and against the male animal, what he wears, and how—mostly and how!

For contrast, I've snared two distinctly different personalities—blonde, five-feet two with eyes of blue, Lulagene Johnson, arts and sciences senior; and tall "omph" brunette Epie Hughes, home economics sophomore.

After leafing through several Esquires for a better understanding of men's clothing, such as 31-inch sport coats, Argyle socks, and the latest in moccasin type shoes, I gave up the magazine as an enlightening process as just a new presentation of the sweater girl without the sweater. I've since become convinced that men find out what's cooking in the newest garb through the grapevine system. —Well, you can't say that shopping for one's brother hasn't its compensations—I even found out about matching shorts and shirts!

WHEN LADIES SPEAK

Comparing notes with Lulagene and Epie, I found them agreed that good grooming was more important than perfect masculine beauty.

Brunette Epie specified the blond Nordic type as her ideal college man. Tabooing the Romeo type, she described her man as being tall, lean with nice shoulders, having a "happy medium" haircut, clean-shaven, and a smile you love to flash.—Nice dreamin' baby!

Lulagene preferred the "man's man" to the "pretty boy" type. He should be tall enough for his clothes, not too brawny, well groomed, and should not revert to type in buying clothing, but should be capable of using his own discretion, she declared.

JOHNSON ON COATS

"Fingertip coats, preferably of camel's hair, are all right as extras; but if the boy has one all around coat, it should be full-length, covert preferred," was the reaction to men's overcoats.

Epie said, "no abbreviated coats," but okayed full-length Harris tweed. Brooks camel's hair, and Cravenette models.

"Men look better in suits," both coeds agreed; but contrasting sports jackets (no wild or loud ones, please), and natural cashmere sweaters are good interchangeables. Flannels are termed "tops," with coverts checked as Lulagene's alternate choice and tweeds sanctioned by Sophomore Hughes.

"White shirts, by all means," were deemed best choice by the girls. Plaid and checked flannel shirts were acceptable for sport. "They look icky downtown," remarked Lulagene.

BOW TIES ARE OUT

Bow ties brought a decided reaction. The blond Johnson admitted she "couldn't stand them." Epie dismissed the whole thing with, "ugh," but favored solid knitted cravats.

"They're all the same," said Lulagene of the hats worn by college men. "Thumbs down on Joe-College snap brims. I'd rather see boys without hats."

"Snap-brim hats are O.K. if the brims aren't too wide," countered Epie. "I prefer olive-brown felts with grosgrain binding."

Lulagene decided that striped socks were all right for casual wear. Our brunette representative rejected stripes for solid-color hand-knitted or Argyle socks, then aired a pet peeve: "I don't like to see a man's socks hanging down around his ankles."

Unclean, ill-kept nails constitute an unpardonable sin. "There's nothing worse than a boy or girl who doesn't look clean, well groomed, combed and brushed," was the staunch Johnson comment.

Epie begrudged the wearing of sweaters without shirts, but ventured that, otherwise, "Most UK boys are neatly dressed and groomed."

Vocational Tests Will Be Given Until February

Vocational guidance tests to aid students undecided about their fields of study will be available until the end of the semester under the auspices of the Student Government association. It was announced yesterday. The fee is 10 cents.

Students wishing to take the tests should leave their names in the personnel office in the basement of the Administration building. The tests will be given individually and each student will be given a personal statement concerning the possibilities of the vocation in which he shows ability.

The tests will be tabulated and from the results will be selected semi-local experts in principle fields in which most students need advice. They will make general talks on their fields and will be on campus three or four days to hold individual interviews with students. These experts will be on the campus February 6.

CATFISH TO OPEN CARD THURSDAY

With the opening match with Eastern cancelled, the Blue Catfish will open their swimming campaign Thursday against Tennessee at Knoxville.

Although several of the team's other matches have also been called off, they will meet the remainder of the opponents scheduled.

The Eastern meet, which was set for yesterday, was dropped when the Richmond school announced that they did not have enough swimmers to put a team into the pool.

A trip to Murray February 28 to meet the Murray State Teacher's college tankmen was cancelled, along with the foray on which the Catfish were to meet Michigan State, Ohio Wesleyan, Loyola university, and DePauw university. This cancellation was brought about by the shortage of rubber, which affected the Cats' usual travel by private automobiles.

Union Buys, Hangs Woodcuts By Long

Six woodcuts by Frank Long, Kentucky artist, have been purchased by the Union and hung in the Music room of the Union building.

Bought through a fund set aside by the Union to buy works of art created by Kentuckians, the cuts were selected and framed by the Student Union Art committee with the advice of Prof. C. R. Barnhart, of the art department.

"COLONEL OF THE WEEK"

Jack McNeal

This week's Colonel of the Week goes to Jack McNeal, of Ashland, a sophomore, in the College of Commerce.

Jack has recently been elected President of Delta Tau Delta social fraternity. He is Vice-President of Keys, Sophomore men's honorary fraternity, and first Sergeant in Pershing Rifles.

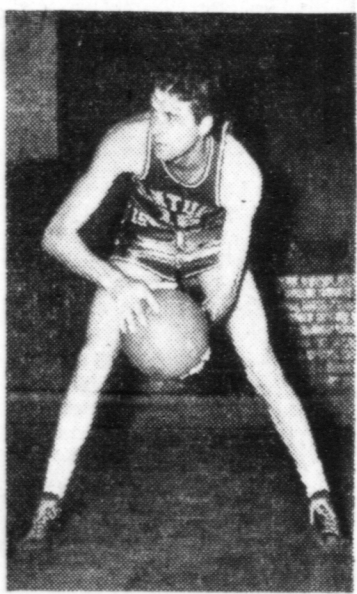

In appreciation of these achievements we invite you to come in and enjoy any two of our delicious meals.

KITTENS DOWN KNOX, 56-43, IN POST GYM

Rolling, Parker Lead Scoring For Yearlings

Kentucky's Wildkittens marked up their second victory of the season Tuesday night at the expense of the Fort Knox basketball team, 56-43, in a game played at the army post gymnasium.

The victory, the Kittens' second of the year over the soldiers, was achieved under the direction of athletic director Bernie Shively, who handled the team while coach Paul McBrayer accompanied the varsity on their southern tour.

Fort Knox was no match for the Kittens first-stringers, but at one time in the second half when the reserves had taken over, the soldiers grabbed a five-point lead but couldn't hold onto it.

The Cat yearlings held leads of 20-8 and 27-17 at the first two rest periods. Leading scorer for the Baby Blues was Rolling, with 11 points, followed closely by Parker with 10. For Knox, Christopher was high, likewise having 11 points.

Victory over the soldiers brought the Kittens' season record to two wins and a like number of losses. The defeats were at the hands of Cumberland college, before the holidays.

Aviation Cadets No Longer Need College Degrees

By PHIL ORR

Of interest to seniors who have specialized in sciences or engineering are the changes in requirements for Aviation Cadet meteorology training released recently by the War department.

The major change indicated is that a college degree may be no longer required, while all previous academic requirements remain in effect.

Training in the form of post graduate courses in meteorology will be given at Massachusetts Institute of Technology, Cambridge, Mass.; California Institute of Technology, Pasadena, Cal.; New York University, New York City; University of Chicago; and the University of California, Los Angeles.

Selections are to be made on a competitive basis and training is to begin March 1.

So why not collect all your old duds that are useless to you and bring them down?

KERNEL SPORTS

The Sporting Way

BY JIMMY BROWN

Johnny Carrico, erstwhile proprietor of this corner who took off for the air corps several days ago, asked me to look after things until the end of the semester. Insofar as I have a date with a draft board and won't be around next semester, Windy Winn will take over as soon as I have cleared out.

This makes sports editors of The Kernel worth a dime-a-dozen, so, in this, my only column, I'd like to get in my two cents worth.

I went down to Knoxville to see the Cat-Vol fracas last Saturday night, and I enjoyed everything about the trip except the score of the game. Since then the Cats' two victories over Georgia teams have taken some of the sting out of the Vol defeat.

Now, I haven't any objections to the score. Tennessee simply won by putting the ball through the basket more times than the Wildcats did, but what I didn't quite understand was the unnatural conditions under which the game was played. The floor of Alumni Memorial auditorium, where the contest took place, is used for all dances held at the University of Tennessee, and the playing floor still had wax on it from a dance held previously. This gave it a very slippery surface and caused several of the Cats to fall throughout the game.

THE VOLS HAD PRACTICED ON IT

Several persons have mentioned that it was as fair for the Vols as it was for Coach Rupp's boys. But the dance had been held over a week previous to the game, one Tennessee student told me, and the Vol netters had been practicing for several days on the slippery surface.

It might not have had anything to do with the outcome of the game, but none of the Wildcat basketballers have taken as many tumbles on Alumni gym floor as they took Saturday night.

It's a sad commentary on southern basketball when rosin has to be dumped along the sideline to facilitate play in a game as important as the Kentucky-Tennessee fray was, and the school officials have to apologize, after their team has won, for the condition of the playing floor.

Despite their Saturday night loss to the Vols, the Cats are compiling one of the best records of any Wildcat team in recent years. To date they have played 10 games and have won eight of them. One of their games this year, with Ohio State of the Big Ten, could easily have gone either way as the teams battled evenly to the final gun.

THREE 'FUTURE FOES' HAVE BEEN BEATEN

Looking at the remainder of the Cat schedule, it is almost a certainty that the Cats' 41-42 record will surpass their 40-41 list of results. Of the eight remaining games on the Cat schedule, three, namely Georgia, Georgia Tech, and Xavier, have already been met and defeated.

Still remaining to be played, however, are Notre Dame, Tennessee, Alabama, and Mexico. Mexico should not prove much trouble, and the Cats will be favorites over Alabama. Kentucky has their best chance in several years to beat Notre Dame, which doesn't seem to be as powerful as in the past.

Tennessee is the only club remaining on the card that has already taken the measure of the Cats. But if you remember last year, Kentucky took a 10-point shellacking at Knoxville and then returned to Lexington later in the season and beat the Vols 37-28.

Ruppmen Close Southern Trip With 63-53 Victory Over Tech

Mel Brewer Gets 20 Points To Lead Wildcat Scoring

Led by big Mel Brewer, who accounted for 20 points on eight field goals and four free throws, Kentucky's Wildcats brought to an end their three-game jaunt into the South by whipping a fighting Georgia Tech five, 63-53, Tuesday night at Atlanta.

The trip into Dixie, which saw the Cats win two and lose one, furnished the Ruppmen with their first taste of conference competition for the season. Their only loss was to Tennessee, the Vols topping them 46-40 Saturday night at Knoxville. Monday night they overwhelmed Georgia, 51-26.

Although the Wildcats played good ball throughout the Tech game, they needed everyone of Brewer's 20 points as a battling Tech team led by Capt. Carlton Lewis, who likewise had 20 points, never gave up. Through sheer determination they kept within striking distance of victory almost until the final gun. However, two fielders by Brewer in the last few seconds gave the Cats their 10-point margin after Georgia Tech had pulled within four points of the Cats with only four minutes remaining in the game.

TAKE LEAD

The Wildcats started out by jumping into a good lead, and it looked as if they might rout Tech as they did Georgia's Bulldogs the night before. However, Georgia Tech, with Lewis beginning his brilliant performance, gradually pulled up and went into the lead for the first and only time during the game, 12-11. However, the Cats began hitting again and at halftime they were out in front, 30-24.

The Engineers kept close all through the second half, but toward the end Kentucky pulled to an apparently safe lead. Tech closed the gap again and with four minutes left the score stood at 55-51. The weary Tech team, which used only seven players in the game, relaxed their tenacious guarding somewhat, and Brewer iced the fray with two fielders.

Their uncanny precision from the free throw line was the big item in the Wildcat win. They sank 15 out of 16, with only a miss by Marvin Akers ruining a perfect record. Georgia Tech was not so successful, sinking 17 out of 28.

HIT FREE THROWS

On the three-tilt trip the Cats connected on 38 out of 48 heaves from the foul line. This is a marked improvement over their early-season free-tossing. Saturday night

against the Vols they hit 14 out of 17 tries, while they dropped in 9 out of 15 against Georgia.
